

Category and Product form

Anticoccidiosis Disinfectant - Liquid

Composition

Glutaraldehyde

Quaternary Ammonium Compound

Indications

- Uni-CocciGuard® is An Effective Aid In The Prevention And Management Of Coccidiosis And Cryptosporidiosis
- Broad Spectrum Activity
- Proven Residual Activity
- Independently Tested
- Active In The Presence Of Organic Matter
- Suitable For All Animal Species
- Effective Against, Virus, Bacteria, Fungi And Mold
- Non Corrosive To Surfaces At Dilution
- Effective On All Kinds Of Surfaces

Dosage and Administration

All surfaces should be effectively cleaned and disinfected. It is advised to use a cleaner such as Detergent applied at low pressure through a foaming lance at a dilution of 1-2% depending on soiling. Allow a contact time of 15-20 mins. Then thoroughly wash all surfaces with a power washer and allow to dry before applying Uni-CocciGuard®.

When dry Uni-CocciGuard® can be applied to the floors and walls to an average height of one metre and allowed to dry.

Uni-CocciGuard® Dilution Rates		
Parasite	Dilution	Time
Coccidiosis	1:50	Leave for a minimum 30 minutes
Cryptosporidium	1:30	Leave for 2 hours

Apply all product at low pressure or through a foaming lance for longer contact time.
For severe disease outbreaks amendments to this programme may be necessary.

Precautions

For veterinary Use Only.

Storage

Store in a cool dry place in tightly closed container.
Keep out of reach of children.
Keep away from direct sunlight.
Keep in Well Ventilated Area.

Packaging

5 liters/gallon

Shelf Life

2 Years in original packaging
