

Composition

Mixture of concentrated herbal extract Amino Acids | Sorbitol
Magnesium sulphate | Vitamins

Target Animal

Poultry, Livestock

Indications

/ LivoRenal® is a combination of nutritional ingredients and herbal extract that will help optimize the functions of heart, muscles, liver, gastrointestinal tract and Kidneys.

/ LivoRenal® is a nutritional supplement that will help to balance fat depositions. LivoRenal® can also support prevention of fatty liver conditions and liver dysfunctions. It will help correct digestive disturbances in animals that are fed a high energy diet that may lead to an increased supply of free fatty acids in the blood. It is also used to correct oxidative stress in different body tissues in various animal species.
