Effecsan HPP®

Disinfectant Solution Based on Hydrogen Peroxide and Peracetic acid
For Veterinary Use Only

Composition

Each liter of solution contains:

- Hydrogen Peroxide 250 g
- Peracetic Acid 50 g

Target Animal

Livestock and poultry

Indication

Effecsan HPP® is a very strong disinfectant with a wide range of effects on all types of microorganisms, including bacteria, viruses, molds and yeasts. Based on FDA and EPA classification, this composition has a sterilization effect. Effecsan HPP® is used for specific disinfection of livestock and poultry farms due to its strong disinfection effect and high biosecurity due to peracetic acid.

Dosage and Administration

Disinfection of:

- Poultry house air in the presence of chicken: dilute at 1 to 1000 ratio (100 cc in 100 L of water), then spray.
- Surfaces of poultry halls: dilute at 1 to 400 ratio (250 cc in 100 L of water), then spray or sponge on all surfaces.
- Equipment: dilute at 1 to 200 ratio (0.5 L in 100 L of water), then immerse equipment in prepared solution.
- Poultry feed: dilute at 1 to 1000 ratio, then spray on the feed.
- Drinking water: dilute at 1 to 20000 ratio, then mix it with drinking water.
- Entrance pools in farms: dilute at 1 to 400 ratio, then use it in the pools.
- Animal carcass in slaughterhouse: dilute at 1 to 250 ratio, then spray on the carcass.
- Milking system and milk transport tanks: dilute at 1 to 250 ratio or 1 to 350, then circulated inside the system.
- Cow teat: dilute at 1 to 350-500 ratio, then spray on the intended areas.
- Hoof to prevent lameness: dilute at 1 to 400 ratio, then spray on the area, or immerse the hoof in the pool for 1-5 minutes.

Storage

- Keep Effecsan HPP® container in a vertical position, in a cool place (below 20°C) and away from direct sunlight.
- Keep the lid of container closed.
- This product is equipped with vented cap for gas exhaust.
- Avoid placing product cartons on top of each other in the warehouse.
- Place product cartons on plastic pallets.
- This product is flammable, therefore avoid proximity to heat sources and flammable substances.

Precaution

- Protect eyes and skin by using suitable clothing (gloves, mask and eyeglasses).
- If contacting with skin and eyes, wash immediately with plenty of clean water.
- Keep out of reach of children.

Packaging

4 Liters gallon
