Effecsan Silver®

Disinfectant Solution Based on Hydrogen Peroxide and Silver Ion
For Veterinary Use Only

Composition

Each liter of solution contains:

- Hydrogen Peroxide 500 gr
- Silver Ion 0.5 gr

Target Animal

Livestock, poultry and aquatic animal

Indication

Effecsan silver® is a powerful and broad-spectrum disinfectant that affects kinds of microorganisms like gram-positive and gram-negative bacteria, viruses, molds and protozoa. This combination is used for disinfection of water, air, feed, equipment, surfaces (floor, wall and ceiling) of livestock and poultry farms, disinfection of entrance pools of farms and livestock and poultry breeding halls, as well as fish breeding pools.

Storage

- Keep Effecsan silver® container in vertical position, in a cool place (below 20°C) and away from direct sunlight.
- Keep the lid of container closed.
- This product is equipped with vented cap for gas Exhaust.
- Avoid placing product cartons on top of each other in the warehouse.
- Place product cartons on plastic pallets.
- This product is flammable, therefore avoid proximity to heat sources and flammable substances.

Precaution

- Protect eyes and skin by using suitable clothing (gloves, mask and eyeglasses).
- If contacting with skin and eyes, wash immediately with plenty of clean water.
- Keep out of reach of children.

Packaging

4 Liters gallon

Indication	Concentration	Dosage (L)	Water quantity (L)	Method of use	Quantity
Air disinfection	1%	1	99	Fogging	1 L/50-100 m ³
Feed disinfection	1%	1	99	Spray	10 L / 1 Ton
Water sanitation	0.001%-0.005%	10-50 ml	1000	In drinking water	10-50 ml/1000 L
Prevention of biofilm formation	1%-2%	1-2	98-99	In water pipe line	1-2% solution for 12 hrs. (Then wash the track with hot water and air pressure)
Surfaces disinfection	2%	2	98	Spray	1 L/10 m ²
Equipment disinfection	2%	2	98	Immersion	5 - 10 min
Entrance pools disinfection	2%	2	98	Immersion	Vehicle wheels and employee shoes with 2% dilution
Fish pools disinfection after drainage	2%	2	98	Spray	1 L/10 m ²
