Toxicut®

Multi- component Toxin Binder, Feed Additive Powder
For Veterinary Use Only

Composition

- Hydrated Sodium Calcium Alumino-Silicate (HSCAS)
- Yeast cell wall
- Activated carbon

Target Animal

Livestock and Poultry

Indications

Toxicut® is used in feed ingredients and complete feed in order to absorb and reduce the amounts of mycotoxins in animal feed.

Dosage and Administration

- Toxicut® is added directly into the feed when mixing.
- The dosage depends on the level of mycotoxin contamination in feed, and a veterinarian or nutritionist's recommendation.
- 0.5 – 2.5 kg per MT of complete feed and raw material.

Contraindication

None.

Withdrawal period

None.

Storage

- Keep it in a cool and dry place.
- Keep away from direct sunlight.

Precaution

Keep out of reach of children.

Packaging

25 kg 4-layer bags
