"A specially formulated solution designed to prevent and treat dehydration caused by bacterial, viral, protozoan, and other pathological or non-pathological diarrhea."

Uniq Electoral

www.uniqcure.com

Uniq Electoral®

Oral solution to maintain the balance of electrolytes

For veterinary use only

Composition

Each liter of the solution contains:

• Dextrose	280 g
• Sodium chloride	110 g
• Glycine	45 g
• Sodium dihydrogen phosphate	22 g
• Potassium chloride	13.5 g
• Sodium Citrate	5 g

Target animal

Livestock and Poultry

Indication

Uniq Electoral® is specifically used to prevent and treat dehydration caused by bacterial, viral, protozoan and other pathological or non-pathological diarrhea. Electrolytes are essential to maintain the total volume of the body fluid and they can prevent osmotic changes of intracellular and extracellular fluids.

- To shortcut recovery period after diseases.
- During lethargy, anorexia and weakness
- During poisoning

Dosage and Administration

- Poultry: 1 liter of Uniq Electoral® / 1000 L of drinking water for 2-4 consecutive days.
- Livestock (cattle, sheep and calf): 50 ml of Uniq Electoral® / 1 L of drinking water, twice a day for 2-4 consecutive days.

Contraindication

None.

Withdrawal period

None.

Storage

- Keep it in room temperature and away from direct sunlight.
- Keep the lid of container closed.

Precaution

Keep out of reach of children.

Packaging

1 Liter Bottle
