# UNICURE ADDITIVES & PHARMA

# about us.

Since 2018, we have been dedicated to research and development in the production of veterinary drugs and supplements. By 2021, we successfully designed and manufactured 70 products, and by 2024, we expanded our portfolio to 120 products. Looking ahead, our vision is to develop and produce high-quality medicines and supplements for pets, livestock, and aquatic species.

We are now seeking to collaborate with distributors across various countries. If you are interested in learning more about our products and partnership opportunities, please feel free to reach out to us.

# CHLORONIQ-T®

CHLORONIQ-T® (Chloramine-T)
Aquaculture Disinfectant
For Veterinary & Aquaculture Use Only

## Composition

Chloramine-T (Sodium p-toluenesulfonchloramide) 98-100%

**Target Animal** 

Fish (Freshwater & Marine Species)

### Indication

CHLORONIQ-T® is a broad-spectrum disinfectant used in aquaculture to:

- Control bacterial infections
- Treat fungal diseases
- Eliminate external parasites
- Disinfect ponds, tanks, and hatchery equipment
- Improve water hygiene
- Reduce disease outbreaks and mortality

### Dosage and Administration

For Water Disinfection:

5 – 10 g per 1,000 liters of water

For Treatment of External Infections (Bath):

10 – 20 g per 1,000 liters of water for 30–60 minutes

For Equipment & Hatchery Disinfection:

2 – 5 g per liter of water

Dosage may vary based on water quality, fish species, and disease severity.

### Note

- Dissolve completely in water before use.
- Prepare fresh solution before each application.
- Dosage and duration should be prescribed by a veterinarian or aquaculture specialist.
- · Do not mix with other disinfectants simultaneously.

### Contraindication

Do not use in case of hypersensitivity to Chloramine-T.

Avoid use in severely stressed or weak fish without professional supervision.

### Withdrawal Period

None.

### **Drug Interaction**

Do not use concurrently with strong oxidizing or reducing agents.

### Storage

- · Store in a cool, dry place.
- Keep away from heat, moisture, and direct sunlight.
- Keep the container tightly closed.

### Precaution

- Use gloves and protective equipment during handling.
- Avoid contact with skin and eyes.
- · Keep out of reach of children.
- For aquaculture use only.

### **Environmental Consideration**

Avoid uncontrolled release into the environment.

Dispose of empty containers safely in accordance with local regulations.

### Packaging

50 g - 100 g - 500 g - 1 kg Containers
