

UNIQCURE ADDITIVES & PHARMA

about us.

Since 2018, we have been dedicated to research and development in the production of veterinary drugs and supplements. By 2021, we successfully designed and manufactured 70 products, and by 2024, we expanded our portfolio to 120 products.

Looking ahead, our vision is to develop and produce high-quality medicines and supplements for pets, livestock, and aquatic species.

We are now seeking to collaborate with distributors across various countries. If you are interested in learning more about our products and partnership opportunities, please feel free to reach out to us.

FLORNIQ® 10%

FLORNIQ® 10%
Florfenicol Oral Solution
For Veterinary Use Only

Composition

Each liter of solution contains:
Florfenicol 100 g

Target Animals
Broilers, Breeders, and Layer Pullets

Indications

FLORNIQ® 10% is indicated for the prevention and treatment of gastrointestinal and respiratory infections caused by florfenicol-susceptible microorganisms in poultry, including:

- *Actinobacillus* spp.
- *Pasteurella* spp.
- *Salmonella* spp.
- *Streptococcus* spp.

Dosage and Administration

1 liter of FLORNIQ® 10% per 1000 liters of drinking water daily
(Equivalent to 20 mg Florfenicol per kg body weight)

For 3–5 consecutive days

Notes

- This product does not require pre-dilution
- To prevent precipitation, add the calculated dose directly to the main drinking water tank
- Medicated water must be used within 24 hours
- Dosage and duration should be prescribed by a veterinarian

Contraindications

- Do not use in layers producing eggs for human consumption

Withdrawal Period

- Chicken meat: 5 days

Drug Interactions

Avoid simultaneous use with:

- Penicillins
- Macrolides
- Aminoglycosides

Storage Conditions

- Store at room temperature
- Protect from direct sunlight
- Keep the container tightly closed

Precautions

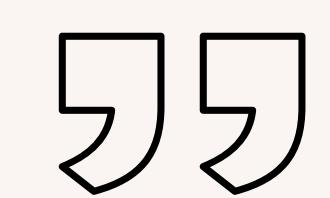

- Use under the supervision of a veterinarian
- Keep out of reach of children
- Shelf life:
 - 2 years when sealed under proper storage conditions
 - 28 days after first opening

Environmental Considerations

- Avoid release into the environment
- Dispose of empty containers and waste safely according to local regulations

Packaging

1 Liter Bottle

Treatment of gastrointestinal and respiratory infections
