

UNIQCURE

ADDITIVES & PHARMA

about us.

Since 2018, we have been dedicated to research and development in the production of veterinary drugs and supplements. By 2021, we successfully designed and manufactured 70 products, and by 2024, we expanded our portfolio to 120 products. Looking ahead, our vision is to develop and produce high-quality medicines and supplements for pets, livestock, and aquatic species.

We are now seeking to collaborate with distributors across various countries. If you are interested in learning more about our products and partnership opportunities, please feel free to reach out to us.

MYCONIQ®

MYCONIQ®
Mineral Mycotoxin Binder
Feed Additive Powder
For Veterinary Use Only

Composition

- Hydrated Sodium Calcium Alumino-Silicate (HSCAS)
- Activated Carbon

Target Animals
Livestock and Poultry

Indications

- MYCONIQ® is used in feed ingredients and complete feed to:
- Bind and adsorb mycotoxins present in contaminated raw materials
 - Reduce the toxic effects of mycotoxins on animal health
 - Improve feed safety and animal performance
 - Support liver health and immune function indirectly by toxin reduction

Dosage and Administration

- Poultry: 1 – 3 kg per metric ton (MT) of complete feed or raw materials
- Cattle: 50 g per head per day

Notes

- MYCONIQ® MINERAL is added directly to the feed during mixing
- Dosage depends on the level of mycotoxin contamination
- Final dosage should be determined by a veterinarian or nutritionist

Contraindications

None known.

Withdrawal Period

None.

Storage Conditions

- Store at room temperature
- Protect from direct sunlight
- Keep the bag tightly closed

Precautions

- Use under the supervision of a veterinarian
- Keep out of reach of children

Packaging

25 kg bag

Bind and adsorb
mycotoxins
