

# UNIQCURE

## ADDITIVES & PHARMA

### about us.

Since 2018, we have been dedicated to research and development in the production of veterinary drugs and supplements. By 2021, we successfully designed and manufactured 70 products, and by 2024, we expanded our portfolio to 120 products. Looking ahead, our vision is to develop and produce high-quality medicines and supplements for pets, livestock, and aquatic species.

We are now seeking to collaborate with distributors across various countries. If you are interested in learning more about our products and partnership opportunities, please feel free to reach out to us.

# NISTRESS®

NISTRESS®  
Anti-Stress Feed Additive  
For Veterinary Use Only

## Composition

Each kilogram contains:  
A carefully balanced blend of natural ingredients and scientifically formulated compounds with anti-stress and metabolic support properties.

Target Animal  
Poultry  
(Also suitable for birds under veterinary supervision)

Indication  
NISTRESS is specially formulated to:

- Effectively manage and alleviate stress in poultry
- Reduce the negative effects of heat stress, vaccination, transportation and overcrowding
- Improve appetite and feed intake during stress periods
- Support immune system function
- Enhance growth performance and feed conversion ratio (FCR)
- Improve overall flock uniformity and productivity

Dosage and Administration  
Routine Use in Feed:  
Add 250 – 500 g per metric ton of complete feed.  
During Acute Stress Conditions (heat stress, vaccination, transportation, disease challenge):  
Add 500 – 1000 g per metric ton of feed for 3–7 consecutive days.

Note

- Mix thoroughly into feed to ensure uniform distribution.
- Dosage and duration should be prescribed by a veterinarian or animal nutritionist.
- Can be used safely alongside antibiotics, vaccines and other feed additives.
- Suitable for strategic use during predictable stress periods.

Contraindication  
None known.

Withdrawal Period  
None.

Drug Interaction  
None.

Storage

- Store in a dry place at room temperature.
- Protect from moisture and direct sunlight.
- Keep the package tightly closed after opening.

Precaution

- Use under supervision of a veterinarian or animal nutritionist.
- Avoid inhalation of dust during handling.
- Keep out of reach of children.
- For animal use only.

Environmental Consideration  
Avoid unnecessary release into the environment.  
Dispose of empty packages in accordance with local environmental regulations.

Packaging  
1 kg & 5 kg sachet

Effectively  
manage and  
alleviate stress in  
poultry
