

# UNIQCURE

## ADDITIVES & PHARMA

### about us.

Since 2018, we have been dedicated to research and development in the production of veterinary drugs and supplements. By 2021, we successfully designed and manufactured 70 products, and by 2024, we expanded our portfolio to 120 products. Looking ahead, our vision is to develop and produce high-quality medicines and supplements for pets, livestock, and aquatic species.

We are now seeking to collaborate with distributors across various countries. If you are interested in learning more about our products and partnership opportunities, please feel free to reach out to us.

# NO-MITE

NO-MITE  
Essential Oil–Based Antiparasitic  
Emulsion  
For Veterinary Use Only

## Composition

- Contains a synergistic blend of:
- Natural essential oils (acaricidal & repellent properties)
  - Emulsifiers and stabilizers q.s.

Target Animal

- Poultry (Layers, Broilers, Breeders)

Indication  
NO-MITE® is a natural antiparasitic emulsion specially formulated for the prevention and control of Poultry Red Mite (*Dermanyssus gallinae*) and other external ectoparasites.  
Indicated for:

- Red mite infestation
- External parasite control in poultry houses
- Environmental disinfection of mite-prone areas

It helps to:

- Rapidly reduce mite population
- Break the parasite life cycle
- Reduce stress, anemia, and production losses
- Improve egg production and flock performance
- Enhance bird comfort and biosecurity

Dosage and Administration  
For Environmental Spraying (House, Cages, Equipment):

- 1 – 2 ml per 1 liter of water

Spray thoroughly on:

- Cracks, perches, nest boxes, walls, and cage structures

For Active Infestation:

- Repeat spraying every 5 – 7 days until complete control is achieved

For Prevention:

- Spray once every 10 – 14 days

Shake well before use.  
Apply as fine mist spray.

Note

- Works by contact and repellent action
- Most effective when used as part of an integrated biosecurity and sanitation program
- Safe when used at recommended doses
- Can be applied in the presence of birds with proper ventilation
- Does not cause resistance due to its natural essential oil base

Storage

- Store below 25°C
- Protect from direct sunlight
- Keep container tightly closed

Precaution

- For veterinary use only
- Wear protective gloves and mask during spraying
- Avoid inhalation of spray mist
- Keep out of reach of children

Environmental Consideration  
Eco-friendly formulation. Dispose of empty containers according to local environmental regulations.

Packaging  
1 Liter Bottle

prevention and  
control of Poultry  
Red Mite  
(*Dermanyssus  
gallinae*)
