

UNIQCURE

ADDITIVES & PHARMA

about us.

Since 2018, we have been dedicated to research and development in the production of veterinary drugs and supplements. By 2021, we successfully designed and manufactured 70 products, and by 2024, we expanded our portfolio to 120 products. Looking ahead, our vision is to develop and produce high-quality medicines and supplements for pets, livestock, and aquatic species.

We are now seeking to collaborate with distributors across various countries. If you are interested in learning more about our products and partnership opportunities, please feel free to reach out to us.

TOXICUT®

TOXICUT®
Multi-Component Mycotoxin Binder
Feed Additive Powder
For Veterinary Use Only

Composition

- Hydrated Sodium Calcium Alumino-Silicate (HSCAS)
- Yeast Cell Wall
- Activated Carbon

Target Animals
Livestock and Poultry

Indications
TOXICUT® is used in feed ingredients and complete feed in order to:

- Bind and reduce mycotoxins present in contaminated raw materials and feed
- Decrease the toxic effects of mycotoxins on animal health
- Improve feed safety and animal performance
- Support liver function and immune system through toxin reduction

Dosage and Administration

- TOXICUT® is added directly into the feed during mixing
- Dosage depends on the level of mycotoxin contamination and on the recommendation of a veterinarian or nutritionist
- 0.5 – 2.5 kg per metric ton (MT) of complete feed or raw material

Contraindications
None known.

Withdrawal Period
None.

Storage Conditions

- Store in a cool and dry place
- Keep away from direct sunlight
- Keep the bag tightly closed

Precautions

- Keep out of reach of children

Packaging
25 kg bag

Bind and reduce
mycotoxins
