

UNIQCURE

ADDITIVES & PHARMA

about us.

Since 2018, we have been dedicated to research and development in the production of veterinary drugs and supplements. By 2021, we successfully designed and manufactured 70 products, and by 2024, we expanded our portfolio to 120 products. Looking ahead, our vision is to develop and produce high-quality medicines and supplements for pets, livestock, and aquatic species.

We are now seeking to collaborate with distributors across various countries. If you are interested in learning more about our products and partnership opportunities, please feel free to reach out to us.

Each 1 liter of solution contains:
p-Chlorocresol

Target Animals

- Poultry
- Livestock

Indications

UNICOCCIKILL® is a powerful broad-spectrum disinfectant effective against:

- Bacteria, Viruses, and Fungi
(Including Avian Influenza and Newcastle Disease)
- Coccidial Oocysts
- Cryptosporidium
- Bacterial Spores
- Mycobacterium spp.
- Endoparasites
- Ectoparasites, including Red Mite eggs and Worm eggs

Dosage and Administration

Indication	Concentration	Contact Time
Disinfection of bacteria, viruses & fungi	2%	30 minutes
General disinfection	2%	30 minutes
Disinfection of worm eggs	2%	2 hours
Disinfection of Cryptosporidium	3%	1 hour
Disinfection of Coccidial oocysts	3%	4 hours
Disinfection of Red mite eggs	3%	24 hours
Disinfection of Clostridium spp.	4%	1 hour
Disinfection of Mycobacterium spp.	4%	3 hours
Foot bath disinfection	2–3%	As required

Surface Application:

For concrete and smooth surfaces, use at least 100 ml of diluted UNICOCCIKILL® solution per square meter.

Storage Conditions

- Store in a cool place
- Protect from direct sunlight
- Keep the container tightly closed

Precautions

- Keep out of reach of children
- Toxic if swallowed
- Toxic if inhaled
- Direct contact with skin and mucous membranes may cause burns and injuries
- Use protective clothing, gloves, mask, and safety goggles during handling
- After use, thoroughly rinse all tools and plastic parts (e.g., pressure washers and hoses) with diluted alkaline detergent
- The presence of formaldehyde or iron (rust) in water may cause chlorocresol crystallization
- Not corrosive when used at recommended dilutions

Environmental Considerations

- Dispose of product and containers in a safe manner
- Empty containers may retain hazardous residues
- Dispose of waste at a licensed waste disposal site in accordance with local regulations

Packaging

- 1-Liter Bottle

Broad-spectrum
disinfectant
