

UNIQCURE

ADDITIVES & PHARMA

about us.

Since 2018, we have been dedicated to research and development in the production of veterinary drugs and supplements. By 2021, we successfully designed and manufactured 70 products, and by 2024, we expanded our portfolio to 120 products. Looking ahead, our vision is to develop and produce high-quality medicines and supplements for pets, livestock, and aquatic species.

We are now seeking to collaborate with distributors across various countries. If you are interested in learning more about our products and partnership opportunities, please feel free to reach out to us.

UNI PHYTOSHIELD®

UNI PHYTOSHIELD®
Herbal Red Mite Control Feed
Additive
For Veterinary Use Only

Composition

Each kilogram contains:
A natural blend of selected herbal extracts
with proven acaricidal, repellent and
protective properties

Target Animal
Layer Poultry
(Breeder and commercial laying hens)

- Indication
UNI PHYTOSHIELD is specifically formulated to:
- Effectively control and eliminate red mite (*Dermanyssus gallinae*) infestations
 - Reduce irritation, stress and blood loss caused by mites
 - Improve bird comfort and welfare
 - Enhance egg production and quality
 - Support immune function during parasitic challenge
 - Reduce the need for synthetic chemical acaricides
 - Improve overall farm hygiene and productivity

Dosage and Administration
Preventive Use:
Add 250 – 500 g per metric ton of complete feed continuously during risk periods.
During Active Red Mite Infestation:
Add 500 – 1000 g per metric ton of complete feed for 7–14 consecutive days or as advised by a veterinarian.

- Note
- Mix thoroughly into feed to ensure uniform distribution.
 - Dosage and duration should be determined by a veterinarian based on infestation severity.
 - Can be safely used alongside conventional mite control measures.
 - Suitable for repeated or long-term use due to its herbal nature.

Contraindication
None known.

Withdrawal Period
None.

Drug Interaction
None.

- Storage
- Store in a dry place at room temperature.
 - Protect from moisture and direct sunlight.
 - Keep the bag tightly closed after opening.

- Precaution
- Use under supervision of a veterinarian or poultry specialist.
 - Avoid inhalation of dust during handling.
 - Keep out of reach of children.
 - For animal use only.

Environmental Consideration
Avoid unnecessary release into the environment.
Dispose of empty packages in accordance with local environmental regulations.

Packaging
25 kg Bag

Effectively control
and eliminate red
mite
(*Dermanyssus gallinae*)
infestations
