UNICURE ADDITIVES & PHARMA

about us.

Since 2018, we have been dedicated to research and development in the production of veterinary drugs and supplements. By 2021, we successfully designed and manufactured 70 products, and by 2024, we expanded our portfolio to 120 products. Looking ahead, our vision is to develop and produce high-quality medicines and supplements for pets, livestock, and aquatic species.

We are now seeking to collaborate with distributors across various countries. If you are interested in learning more about our products and partnership opportunities, please feel free to reach out to us.

UNIQ SALINO®12%

UNIQ SALINO 12%®
Anticoccidial Feed Additive
For Veterinary Use Only

Composition

Composition Each 1 kg of product contains: Salinomycin 120 g (12%)

Target Animals

Poultry (Broilers)

Indications

UNIQ SALINO 12%® is indicated for the prevention and control of coccidiosis in broiler chickens caused by Eimeria species.

Dosage and Administration

• Broilers:

500-700 g per metric ton (MT) of complete feed

• Administer continuously through the growing period or as directed by a veterinarian.

Mixing Instructions:

Premix the required quantity of UNIQ SALINO 12%® with a small amount of feed first, then add to the total feed volume and mix thoroughly to ensure uniform distribution.

Contraindications

- Do not use in layers producing eggs for human consumption
- Do not use with other ionophore anticoccidials

Withdrawal Period

Meat: 1 day (or according to local regulations)

Storage Conditions

- Store in a cool, dry place
- Protect from direct sunlight
- Keep the bag tightly closed

Precautions

- Use under the supervision of a veterinarian or nutritionist
- Avoid direct inhalation of dust
- Use protective clothing and dust mask
- Keep out of reach of children

Environmental Considerations

- Dispose of product and empty bags safely according to local regulations
- Avoid release into the environment

Packaging

• 25 kg bag

Prevention and control of coccidiosis in broiler chickens caused by Eimeria species.
